Taylor Made Solutions

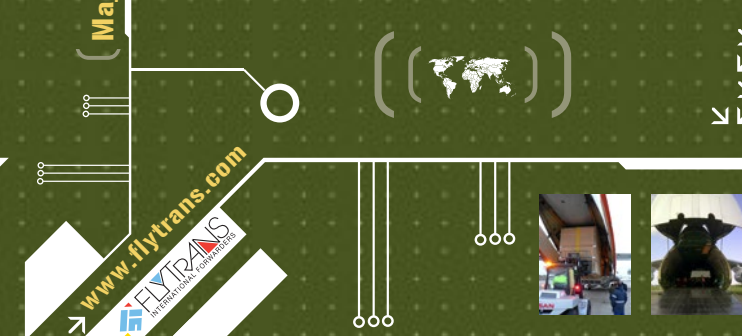

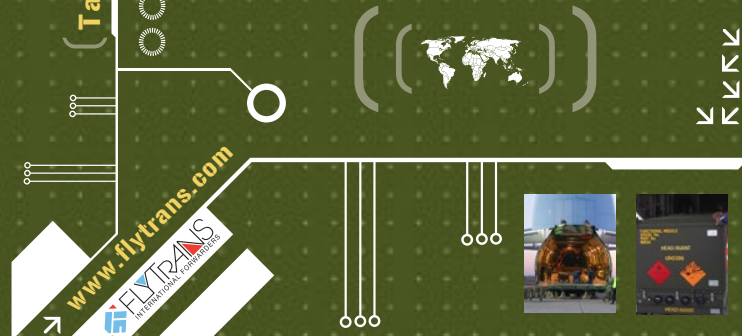

FLYTRANS

FLYTRANS is ranked among Europe's top ten Forwarding companies bringing to the market its knowledge and know how on the Hazardous, Cargo and Passenger charter transportations. Our offices are available to handle all types of expeditions from A to Z, arranging all logistics, air and sea transports and documentations required.

Our specialists are available to taylor any offers based on your needs whatever the destination, the time frame. Major companies and government organizations trust FLYTRANS and our references are built on the successful quality of service we have been providing for the last 15 years to the market.

Major Ports and airports

With over 25 years of experience in the transportation of transporting explosives to worldwide destinations around the world, FLYTRANS is the most recognized French Freight Forwarders name in the hazardous materials shipping carriage business among foreign governments and regulatory agencies.

In addition to our IATA accreditation, FLYTRANS holds a permanent explosives exemption by with the French Civil Aviation dangerous goods department of Civil Aviation to transport in cargo-only aircraft, Divisions 1.1, 1.2, 1.3 and 1.4 explosives which are forbidden or and exceed the allowed authorized quantities for air transportation by cargo aircraft only.

When all other modes of transport of hazardous materials are unavailable either due to the nature of the commodity or time constraints, FLYTRANS will likely be your company's elected ultimate transport solution provider.

Examples of explosives which FLYTRANS transports on a yearly basis regularly include:

- Class 1.1D Shaped Charges for the commercial blasting industry
- Class 1.1F Projectile with Bursting Charge for the defense industry
- Class 1.1B Detonators for the oil industry
- Class 1.3C Rockets for the defense industry
- Explosive pyrotechnics for the motion picture industry
